# City of Smile Foundation

- ♥ *We believe, that cancer is not a verdict, and each, even the smallest donation can be crucial.*
- ♥ *We believe, that no one has to ever be left alone with their problem.*
- ♥ *We believe, that treatment should be available for everyone.*
- ♥ *We believe, that financial hardship, is not a reason for a child to be deprived of medical assistance*
- ♥ *We believe, that cancer is not contagious – love is.*

## *The Aim of the Foundation*

"City of Smile" Charitable Foundation was founded in 2014. The founders of the foundation were a group of hematologists and oncologists.

The goal of the foundation is to support children and young adults under 25 and their families to overcome the rough path of fighting against cancer and hematological disorders.

Another purpose of the foundation is to continuously boost the development of oncology and hematology in Armenia. The foundation also supports physicians and medical institutions, to be able to provide high-quality diagnosis and successful treatment for its patients.

## Achievement of the Year

### IMPLEMENTATION OF ALLOGENEOUS BONE MARROW TRANSPLANTATION IN ARMENIA

*In August-September of 2023, with the financial support of the "City of Smile" charitable foundation, the RA Ministry of Health, and the DKMS Center, an allogeneic bone marrow transplant for malignant blood diseases was carried out for the first time at the Yeolyan Hematology and Oncology Center.*

*It is noteworthy that this program: the allogeneic bone marrow transplantation for malignant diseases, was performed for the first time in Armenia, on a little Armenian patient. It was carried out with the efforts of the doctors of the Armenian Group of Bone Marrow Transplantation (ArmBMT) and with the constant consultation of Dr. Paul-Gerhard Schlegel, doctor of the Children's University Hospital of Würzburg, Germany.*

*The implementation of the allogeneic transplant program in RA is unprecedented and creates great opportunities to treat children and adult patients with malignant blood diseases.*

*Since the start of the program, and up to the end of 2023, 3 patients have been transplanted.*
